Acknowledgement

Praise to Allah, the most magnificent and the most merciful, for granting me the opportunity to complete the BBA program and therefore this report. Then I would like to take the opportunity to express my gratitude to my honorable teacher Sohana Wadud Ahmed, Lecturer, BRAC University to provide guideline and opportunity to complete the report as a supervisor.

I like to express my thanks and deepest gratitude to human resource department of Jamuna Bank Limited for giving me opportunity, appointment and lastly certification for the internship program that I have completed. I also want to acknowledge the guidance of the Manager and all officers and staffs of JBL (Gulshan Branch), who spread their valuable time for me. I will never forget their kind and friendly behavior.

I am really thankful to Mr. Ashutosh Kumar, SVP & Head of Branch who helped me to complete this report. I got full support from all staffs of the JBL (Gulshan Branch) especially I express my gratitude towards Mrs. Farzana Siddiqua (FAVP) who gives all the support that I need to prepare the report.

I like to express my thanks and deepest gratitude to Mr. Zahir Ahmed Taqi (Senior Executive Officer) for his cordial behavior and help.

Executive Summary

This is the internship report based on the three month long internship program that I had successfully completed in Jamuna Bank Limited under Foreign Exchange Department from 11.04.2015 to 12.05.2015 as a requirement of my BBA program on Department of Business Studies, BRAC University. As being completely new to practical, corporate world setting, every hour spent in the HRD gave me some amount of experience all the time all of which cannot be explained in words. But nevertheless, they were all useful for my career.

Though I worked in foreign Exchange Import Department but for project work I had also an opportunity to take information and know In HRD how to keep employees motivated as well as how to control insubordinations, compensation and benefits planning, how to lead etc. This report based on Jamuna Bank Limited with Compensation, Pay and Benefits and HR Administration. Jamuna Bank has a rich Human Resource Department. It maintains the organizational responsibilities successfully. The HR team of Jamuna Bank is completely organized and well reputed team.

My personal views about the HRD, my value addition to the HRD are also included in the report. With limited knowledge and experience I tried my best to make this report as much understandable as possible and translated the real world experience into a document. The various boundaries to process improvement and maintaining ethical standards in a corporate environment have also been experienced. But even so, how those policies and practices are In-Line with the corporate strategy are discussed in this report.

Before drawing any conclusion based on this report it may be noted that the report was prepared in a very short term and there is lack in data. But still the report may be useful for designing any further study to evaluate the HR facilities provided by the banks.

Chapter 1

The organization:

Introduction: The internship report titled “Compensation practice and Benefits in Banking Industries” is submitted of the Bachelor of Business Administration program of University .The purpose of this internship report is to learn how to conduct a professional research by exploring practically in banking sector. The topic was assigned by my internship supervisor Lecturer Sohana Wadud, Department of Business Administration. It comprises the relationship analyst that private sector banks of Bangladesh in the compensation & employee satisfaction. Bank is very old institution that is contributing toward the development of any economy and is treated as an important service industry in the modern world. Economic history shows that development has started everywhere with the banking system and its contribution towards financial development of a country is the highest in the initial stage. Modern banks play an important part in promoting economic development of a country.

Bank provides necessary funds for executing various programs in the process of economic development .they collect savings from large masses of people scattered throughout the country, which in the absence of banks would have remained ideal and unproductive, these scattered amounts are collected, pooled together and made available to commerce and industry for meeting the financial requirement.

Bank plays a vital role in the economy by providing means of payment and mobilizing resources. Bank is the most important financial institution in the economic development of a country depends on the development of banking sector. Today’s modern banks are not only providing traditional banking but also expanding the many financial services. In today’s world the life of the people directly are within the arena of banking whether conventional or Islamic banking is not a newer concept in Bangladesh as it has started its operation since 1983, very few people are aware about its operation. But things are changing. Islamic banking is also getting popularity in the country.

Internship program essential for every student, especially for the students of Business Administration, which helps them to know the real life situation, for this reason a student takes the internship program at the last stage of the bachelor's degree, to launch a career with some practical experience. Against this backdrop, I have completed my three months internship in the Jamuna Bank Ltd., Gulshan 1, Branch, Dhaka, which has helped me a lot to understand the real life situation of banking business.

History:

Jamuna Bank Limited is a private commercial bank in Bangladesh. It was established on June 3, 2001. Jamuna Bank has now in total of 97 branches as on April, 2015. Chapter 2

Job Description:

I have worked JBL intern in three month at foreign exchange department. Foreign Exchange department is international department of the bank. It deals globally. It facilitates international trade through its various modes of services. It bridges between importers and exporters. If the branch is authorized dealer in foreign exchange market it can remit foreign exchange from local country to foreign country.

For providing better service in foreign trade JBL established correspondent relationship many foreign Banks. Foreign Exchange department of JBL is divided into three sections:

- Import
- Export
- Foreign Remittance

Import financing:

The most important method of import is -financing International trade take place between sellers and buyers located in different countries. The parties to a trade transaction are not always known to each other. Even if they are known to each other the seller may not have full confidence in the carried worthiness of the buyer or the buyer may not like to pay before he actually receives the goods. In letter of credit the banker's credit worthiness is substituted for the credit worthiness of the importer. Under a bank- cards letter of credit, the issuing bank gives a written undertaking on behalf of the buyer that the bank will honor the obligation of payment or expectance as the case may be on presentation of stipulated documents. As the request of the importers bank issue the letter of credit at a merging by the govt. instruction. Bail: does not generally issue the letter of credit less than 50% margin. JBL follow the margin prescribed by the government strictly

Specific responsibilities of the job: As an internee I have performed numerous activities. My main task was to assist officers and in every aspects of their daily work. It includes every activity that the officials performed like computer posting, document analysis etc.

1. Computer posting of transactions
2. Sorting of cheque according to serial number
3. Maintaining different registers
4. Filing different L/C related documents
5. Matching month wise L/C and Bills transaction value between server and register
6. Filling up EXP and IMP forms
7. Editing of L/C issue statement
8. Endorsement of different papers
9. Entry of cheque and deposits slips number and amount in the registers and give the serial number to those slips

Different aspects of job performance: Within three months I have learned lot of banking activities in banking sector. My supervisor and my other colleagues also helped me to lot. Employees were very helpful and encouraged me to do activities.

Observation:

1. Due to regulations and policies of the country, there are great differences in the documentary requirements of export and import LCs in Bangladesh. LCs issued from abroad i.e. export LC asks for fewer documents than the LCs issued from our country. However, both import and export LCs, submission of insurance documents are rarely asked for their requirement to be covered by domestic insurance companies
2. There is shortage of computer in import section. Sometimes the shortage of computer makes some unfortunate event in that section
3. Lack of skillful manpower in import section
4. Flora On-line banking software is used by JBL Gulshan Branch and this is quite difficult to use for the employee as the employees are not well trained
5. Foreign exchange department has highly adhered with procedures; rules and regulations provided by Bangladesh bank but most of the cases the officers are not knowledge about this regulation and Acts
6. Branch has no any IT expert person as a result they are fully depending on Head Office IT section and its time consuming when face any computer problem
7. The procedures to open documentary credit are full of hard and fast rules & regulations (as per Bangladesh bank) but compare to other banks, JBL is very much fasted to open documentary credit

8. Internet services are not available and slow internet speed as a result banking activities hampered
9. In our country, financial problem is a great constraint in foreign trade. JBL is very conservative for post shipment finance
10. The Bank undertaken strong policy Guideline to regulate and monitor to minimize the foreign exchange risk due to exposure in currency movement

All of the officers on this department of Gulshan Branch are not having computer facilities, which are slowing down the activities of foreign exchange department. The most essential is that vouchers are prepared and different persons do computer posting, which creates confusion and delay of operation. Another problem is that only some documents and recording procedures done by computer others are done manually.

Recommendation:

In order to get competitive advantage and to deliver quality service, top level management should try to modify the service. As an internee of JBL, Banani branch, I have some recommendations which are given below:

- JBL need to necessary changes in import policy to permit imports to be made without LC to reduce import cost and subsequently reduce prices on essential and consumable goods.
- Foreign exchange operations of other banks are more dynamic and less time consuming. JBL should take some initiative to compete with those banks.
- The faster Internet recording procedures and documents of import keeping process of in this department must be improved through sequential effort system and for all type recording of this department should be computerized.

- To arrange more employee in the Import Section for reducing the pressure.
- Employees should be more expert and trained to use the Flora software (According to the statement of some employee of JBL who has the experience to use more than on banking software).
- JBL has to ensure the good networking system between the employees should use at Service for SWIFT communication.
- JBL must train up for writing import documents to develop electronic banking system to moderate the service.
- Branch has to ensure at least one IT exporter. JBL should train up their branch personnel about all sort of information regarding SWIFT and its services.
- JBL should always monitor the performance of its competitors in the field of foreign trade.
- Customer service should be faster than others banks. For customers convenience in foreign exchange department of JBL should provide more personnel to deliver faster services to their honorable customer.
- JBL should focus on their promotional activities.
- They should focus on the marketing aspects to let customers know about their products and offerings and more promotion should be given to attract new customers.
- Due to lack of proper knowledge about the operation procedures and services provided to the customers by SWIFT. Some customers are facing problem, as they have to wait for certain line to get the service and sometimes personnel are not being able to operate SWIFT. They are not fully independent of handling SWIFT. Official training is the solution to this problem.
- Mercantile bank ltd. Primer Bank ltd. Eastern bank ltd, First Security bank ltd, Mutual trust bank ltd. Dhaka bank ltd. etc. banks are emerging competitions of Jamuna Bank

Ltd. So, JBL should introduce good service and other qualitative product for that reason they can overcome all other their rivals.

- In terms of import and export they have to increase their work efficiency.
- For maintaining foreign exchange risk management, related verity of training should be provided to Jamuna bank employees.
- JBL Bank try to build up quality man power having skilled and professional expertise by established its own Training institute at Head office.

Chapter 3

Project:

Broad Objective:

The main objective of this report is to analyse the pay structure and benefits of banking sector. In 2001, our Government gave permit for opening lots of banks like Jamuna Bank, Meghna bank, One bank, Mutual trust bank, First security bank, Premier Bank etc. I have to compare Jamuna Bank with two other banks about their compensation and get benefits from bank.

Specific Objective:

- To identify the compensation structure of Jamuna Bank.
- To evaluate the structure of Jamuna Bank and two other bank which open with together like Mutual trust Bank, Premier bank.
- To compare the benefit of Jamuna Bank and two other banks also.

Methodology:

Primary data sources:

The following methodology will be followed for the study based on observation and interpretation. Data sources are scheduled on an informal discussion with officials, company website and observation while working in different desks.

Secondary data sources: Secondary data are data collected for some purpose other than the main facts. Secondary data are quick source of background information. I also collected information from secondary data sources. The sources are:

- ✓ Internet
- ✓ Financial statements
- ✓ Interview with the HR (Human Resource) personnel
- ✓ Previous reports on HR of Jamuna Bank and Premier Bank, Mutual trust Bank.

Limitation:

1. Insufficient information is found from the annual report, company's website regarding with my topic.
2. Important publications, prospectus, article etc are not available in the brunch related my topic of the project.
3. The bank staffs are restricted to disclose about the compensation package
4. Bank is a very busy pecuniary institution; therefore it would be harsh and complicated for them to give me sufficient time
5. Constant and continuous changes in HR policies is the most problematic issue for me, since being updated with the most recent decision seemed to be very critical as they were more confidential than they used to be.
6. Only my experience of three months is not that much enough to describe the policies in detail since they have more than 14 hundred people working in the organization. Knowing policies and

benefits for different level and band seems to be very tough while I was analyzing the issues within such a short period of time.

7. For recent political issues they have changed so many HR policies and they minimized their talent acquisition activities and that actually is not the usual scenario for the company which unfortunately I had to take into consideration.

8. It was tough to manage the time to complete the report due to time constraints of the interviewees.

9. The branch is too much dependable on Head Office because whenever I asked any question they were confused and then take information in main branch.

Main Body of the Project:

Compensation: Compensation is a systematic approach to provide extrinsic and intrinsic benefits, monetary and non monetary benefits to the employees. It is also considered as measurement how employees are being treated in an organization. Each and every organization has their own compensation planning where they specify what facilities are going to provide their employees, how it should be provided and based on what category. Having the theoretical knowledge of compensation I feel interest to know about the real scenario of compensation practices and how it is being implemented in an organization of our country. I have selected Jamuna Bank to know about their compensation system and employee satisfaction. The human resources policy and procedure manual of Jamuna Bank provides the policies and procedures for managing and developing staffs. It also provides the guideline will use to administer these policies with the correct procedure to follow. These policies and procedures are applied to the employees of Jamuna Bank. It refers to all forms of pay or rewards going to employee and

arising from their employment, and it has two main components. There are direct financial payments in the form of wages, salaries, incentives, commissions, and bonus and there are indirect payment in the form of financial benefits like employer- paid insurance and vacations.

Reward:

Reward basically provided to the employees of the organization for their good performance. It is of two types (1) Intrinsic and (2) Extrinsic.

(1) Intrinsic Reward:

It is the personal satisfactions one gets from the job itself. These are self-initiated rewards, such as having pride in one's work.

(2) Extrinsic Reward:

It includes money, promotions and benefit. Their common thread is that they are external to the job and come from outside source, mainly management.

Benefits:

Benefits include mandatory protection programs, pay for time not worked, optional protection programs, private retirement plans and a wide variety of other services.

Organizational Practice:

Jamuna Bank Limited usually provides more or less the above compensation, reward and benefits. They provided financial compensation like Basic salary, Bonus, Wages, Incentives and Non-financial like Housing, Medical, Transportation, Insurance.

Compensation, rewards, benefits:

Pattern of Compensation

Financial	Non Financial
Basic salary	Housing facilities
Incentives	Transportation
Bonus	Vacation
Wages	Insurance

Pattern of Reward and Benefit

Reward	Benefit
Increment (Double/ Triple)	Provident fund
Promotion	Gratuity
	Profit bonus

Finding and Analysis:

Compensation, pay and benefit on Jamuna Bank:

The Bank is committed to follow a fair, competitive and flexible remuneration policy. The Board is the final authority for approval of this policy and will amend and review the policy on recommendation of the Managing Director / Management Committee periodically.

The remuneration policy of the bank will cover all persons engaged in permanent service of the bank.

Jamuna Bank Employee's Provident Fund: The Jamuna Bank employees' provident fund requires the employer i.e. Jamuna Bank Limited to contribute to the fund 10% of basic salary for all regular confirmed employees. Every member of this fund on retirement is provided with a sum of money as determined by the established rules for the fund on retirement or resignation from his or her services. A board of trustee is entrusted with the control, management and investment of the fund.

Contribution:

As stated by the rules, each member contributes a sum equal to 10% of the basic salary each month that is deducted by the bank at the time of payment. JAMUNA Bank Limited matches the employee's contribution with a monthly payment equal to 10% of the basic salary of each member. Every half year, each member's account is credited with interest pertinent to the income earned on the investments from the fund. The sum of money given by the members and the amount contributed by the bank are credited separately to his/her account in a special ledger kept by the trustee at the head office of the bank in Dhaka

Payment:

At the time of resignation or retirement, the employee is entitled to receive the employer's contribution and the accumulated interest subject to his or her length of membership in the contributory provident fund.

If the employee has been a member for less than or equal to year then he/she will not be eligible to receive any of the above mentioned contributions. He/she will only be able to obtain his added contributions over the period of his membership.

If the duration of membership has been equal to or less than three years then the member will be entitled to receive 50% of the employer's contribution and accumulated interest.

If the duration of membership has been more than 3 years then the member will be entitled to receive 100% of the accumulated interest and employer's contribution.

In case a member is dismissed due to negligence or incompetence, he or she will be entitled to receive her/her own contribution along with the accrued interest thereon at the settled interest rate. The bank's contribution however may be forfeited and distributed among the members according to the individual balances of the members.

The same is applicable in case of an employee dismissed from the bank due to misconduct or fraud. However, for such purposes, only the trustees shall be the sole judge of whether the cause of dismissal or forced retirement is significant enough or not.

Conclusion:

Compensation and benefits are significant area of human resource management, and also it can greatly affect employee behavior. To be effective, compensation must be perceived motivate the employee to work properly in the organization. The outcome of job evaluation is the development of an internal structure or hierarchical ranking of jobs. In this case, it is tried to identify the basic differences of the compensation strategies between Jamuna Bank and the other two banks. If we compare then we found that their some motivational factor of Jamuna Bank that encourage to do the work and also some lacking. Mutual Trust Bank some areas are more attractive than Jamuna Bank. On the other hand, Premier Bank does not get more facilities compare to others. It depends on Human Resource Department where they decide how to satisfy their employees. There are also motivational factors needed for the career development of the employees that they can give best performances to the bank.
